

MPJet Price List as at 18th June 2007

MPJet Classic .040/ 0.6cc Diesel

MPJet engines are made in the Czech Republic by a firm which established an enviable reputation for small glow & diesel engines over a 20 year period. The Classic 040 has always been popular and OWEN ENGINES sold hundreds of these before MPJet ceased production of all IC engines nearly five years ago to concentrate on electric models. They are now one of the largest European manufacturers of high-quality e-flight motors and accessories. The engines offered are from a current batch made at the request of specialist suppliers like ourselves. All engines carry a conditional Six Month Warranty and are supplied properly boxed and with full instructions. Each Classic engine is shipped with a clear FF tank, a safety spinner nut and a 14pc mounting set comprising 2.5mm screws, washers & blind mounting nuts.

Please note that all prices shown in A\$
